

We are going to use the TASC wheel to help us plan our anti - slavery memorial

- 1) Gather and Organise: We are going to start with a Mindmap to gather from memory everything we know about opposition to slavery
- 2) Identify: Our task is to design a memorial to commemorate the 200th anniversary of the end of the Slave Trade in Britain, 1807

3) Generate: Now you need to plan out what your memorial is going to look like:

- ? What type of memorials have you seen?
- ? What are the different styles of memorial that you could use?
- ? Are you going to create a picture, statue, webpage or something else?
- ? What is your memorial going to be made of?
- ? What words are you going to include on your memorial?
- ? Where would you like your memorial to be placed?
- ? Who are you designing this memorial for (is there a particular audience?)
- ? What other ideas have your group generated?

4) Decide: Having discussed all of the ideas from your group you all need to decide which are the best ones to use. You also need to make sure that everyone in the group knows exactly what job they are going to do to make your team work effectively
